Dear Harold,

Just a short note to say hello and express both my, and [redacted] Nikki's, thanks for the hospitality you showed us. Lillian is an excellent cook!

After I left you home I went to see the committee in Washington. I met with Tannenbaum, Cliff Fenton, Jackie Hess and Kevin Walsh. I allowed them to copy the relevant material and gave an analysis of what I believe it all means. They seemed extremely interested in pursuing all of it.

While in Wash. I visited the archives and managed to get at least one page more of "new" evidence on Milteer. It is page 26 of the report of SA Charles Harding dated Dec. 1, 1963. (Perhaps you have it, but it was new to me). It states, "Mr. Kermit Faulk, Assistant Manager, Southern Bell Telephone and Telegraph Company, Valdosta, Ga, advised that Joseph Adams Milteer has no telephone in Quitman, Ga. Mr. Faulk advised after a check of the toll calls of the telephone listed to Mrs. C.C. Cofield, Valdosta, Ga., with whom Milteer resides part time, that for the period August 26 to November 6, 1963 three calls were made to Miami, Fla., two to William Somersett and one to Miami telephone number 371-1031." (The report was written by Kenneth Williams).

The way I read it, and I perceive a strict wording, the request was for [redacted] calls placed soley to Miami. It's as if they avoided other calls to other areas. [redacted] Also, the dates requested seem to be quite interesting. Why those arbitrary dates? Perhaps you could give me your opinion?

The other things I obtained are catalogued here. Perhaps there are some that you have been unable to receive before, such as those recently declassified. I am not familiar enough with all the documents to know what might be new so I will leave it to you to determine which may be.

Also, interestingly, there was no file on either McLaney brother.

By the way, did you see the Jack Anderson column on Milteer? I thought it was intersting, but I am wondering why the committe is leaking all this stuff to him now. Any comments?

Another thing, when FBI reports refer to things such as "T-1 said," or"AT T-2 advised," what are they talking about? Informants or another code named intelligence agency?

Must close now, but in the meantime will try and get you the xeroxes you requested before. I haven't had the time yet. Oh, if you could get those materials I lent you back to me soon I would appreciate it. I will be needing them for some research.

Thanks again,

Best regards,
Dan

P.S. Did you see Percy Foreman on the "Tomorrow" show Jan 17?
